Jetour DASHING is officially launched in Curaçao. Pride itself on a pioneering and striking appearance, combined with innovative and humanized technologies, DASHING is set off to deliver an unparalleled SUV experience to consumers from around the globe.

A brand new design born to stand out

Jetour DASHING abandons the traditional family-oriented appearance, adopts a new inter-generational design language, and perfectly integrates pioneering technology and mechanical aesthetics to meet the demands of a new generation of consumers who pursue new technologies and unique experiences.

Its slender body, supplemented by a trendy and fashionable rear fastback shape, embodies a refreshing and sporty atmosphere. The sharp edges and corners of the front end, combined with the layered air intake grille and the slender LED headlights on both sides, embracing a technological-advanced aesthetic. The laser lights are added to the rearview mirror, which gives a luxurious edge; the hidden sensor handle is atmospheric and simple, making sure the car looks clean and tidy; coupled with the 20-inch multi-spoke wheel design, adding completing an overall fashionable outlook with more strength and subtleness.

Supreme nature, doubling the comfort

In order to meet the preferences of different users, Jetour DASHING provides two different color-matched interiors, including black-red and gray-white combinations. Its seats are made of suede, which not only provides extreme comfort but also adds a high-end texture simultaneously.

In addition, Jetour DASHING has craftily created a healthy cockpit to bring consumers a healthy and comfortable riding environment. 118 types of healthy interior materials are selected for the car, including the steering wheel, seats, and other areas are all made of antibacterial and antibacterial fabrics, which can effectively resist the invasion of external bacteria.

Extensive air purification

The Jetour DASHING integrates a extensive air purification system in the car make sure every consumer's travel health is taken care of during the ride.

The car integrates PM2.5 monitoring, CO monitoring, CN95 high-efficiency filter, and negative ion generator into a single interior air purification system, and takes care of every client's health in their travels.

Humanized technologies for an unparalleled experience

Jetour DASHING is enhanced with human technology, immersed with cutting-edge technologies, so that the users can enjoy a fully unparalleled driving experience. It is equipped with industry-standard voice recognition, Bluetooth connection, remote start and other functionalities considerate of users' daily needs, making smart travel accessible at your fingertips.

The smooth lines of the center console and the interior ambient lighting offer a relaxing and comfortable sensory experience. A 15.6-inch center console screen replaces the physical buttons, making it easier for the drivers to read information quickly and accurately. Paired with the stalk shifter, the model offers an atmosphere that is perfectly integrated with comfort and style.

There is a small electronic screen equipped on the door panel, on which the inside and outside temperature and PM 2.5 can be shown. The floating hand box and wireless charging function shows thoughtful consideration for the users.

Safety

Jetour DASHING is equipped with smart technology that supports the significance of user-driving safety, with a 540° panoramic parking assist system, an automatic emergency braking system, a Lane Departure Warning System, and a Rear Side Collision Alert, protecting users' safety from all dimensions.

Powerful performance for driving seamlessly

Jetour DASHING is one of the latest primary models under Jetour Auto as its first A-class SUV model. It doesn't fail to deliver a top-notch and powerful performance with its strong capabilities. The 1.5T-6DCT engine provides superior power and low consumption.

The 1.5-6DCT achieves a maximum output power of up to 156kW and a maximum torque of up to 230 horsepower/m, allowing users to switch seamlessly between gears, bringing an effortlessly smooth experience to speed enthusiasts.
