To make it easy for you we have made an overview of **public** charging stations. Most of them are situated at tourist areas or shopping centers. Soon there will be more.

Most charging stations are part of the D-Point company (www.d-point.net) and are delivered and maintained by Dynaf. (www.dynaf.com)

Charge Up Your Island Adventure: Electric Cars, the Curacao Way!

60-kilowatt fast charging

 7 - TUI Hoofdkantoor
Schottegatweg (Oost) 96

A few Hotels & Resorts, as well as some eco-conscious companies offer charging points for their guests and customers.

Again, soon there will be more charging points, as Curaçao is also engaged in the global green movement.

Most charging stations are part of the D-Point company (www.d-point.net) and are delivered and maintained by Dynaf. (www.dynaf.com)

Did you know...?

- At Curaçao you normally charge at home at night. With the current driving ranges, it will be more than adequate to use the car the entire day. It's just the same as charging your phone.
- You can always charge extra miles at the charging points.
- Charging can also be done using your household outlets of 220v or even 110v. The use of a charging station is not mandatory.
- Most chargers are Type 1. HCR Motors provides adaptors so you can plug in your type 2 plug into a type 1 charger.
- You can also rent your Electric Car at our partner company [AVIS](#).
- Easy - Download the free D-Point app from the [Apple Store](#) or [Google Play Store](#) to see where you can find a free charging spot near you! (Internet connection required.)
- New on the island? Use MAPS.ME to navigate, you can download the map, and after that you won't need an internet connection while driving. ([Apple Store](#) / [Google Play](#))
